

Nomination for ERES Junior Award 2015

Dear Colleague

The 5th ERES Junior award will be presented at ICFE-9, which will be held in Oxford (U.K.) September 6-9, 2015.

<https://sites.google.com/site/felements2015oxford/>

The prize is meant to distinguish a young investigator (**under 35, i.e. born 1980 or later**) for an innovative contribution to the science and/or technology of f-elements. Previous winners were Professors Koen Binnemans (KU Leuven, Belgium, 2000), Zhiping Zhen (U of Arizona, USA, 2003), Daniel Jaque Garcia (U Autonoma Madrid, Spain, 2006), and Tiziano Montini (U of Trieste, Italy, 2012). The prize was not bestowed in 2009.

We are now seeking proposals for nominees who correspond to the following description:

“The award is given for an innovative contribution to the science and/or technology of the f-elements. Contributions to other areas of science or technology should not be part of the decision. On the other hand, the potential of the candidate in the field of research and/or technology should be a major consideration in the decision” [regulations of the award, section 2].

The proposal should contain:

- (i) a nominating letter from an individual or group of individuals highlighting the achievements of the candidate and the reasons of the nomination
- (ii) supporting letters
- (iii) a curriculum vitae with a **short** description of the research performed (1-2 pages)
- (iv) a list of publications and/or of any relevant items.

<http://ereswww.epfl.ch/>

Nominations are now sought and should be sent to Prof. J.-C. Bünzli, **exclusively by e-mail to jean-claude.bunzli@epfl.ch**, under the form of **A SINGLE .pdf file**. Other formats will not be accepted.

Deadline for the reception of the applications is **February 28, 2015**.

With best regards

ERES executive committee
