

Nomination for the LeCoq de Boisbaudran Senior Award 2015

Dear Colleague

The 6th LeCoq de Boisbaudran award will be presented at ICFE-9, which will be held in Oxford (U.K.) September 6-9, 2015.

<https://sites.google.com/site/felements2015oxford/>

The prize is the European equivalent of the American Spedding award. Previous winners were Professors Paul Caro (France, solid state spectroscopy, 2000), Herbert Schumann† (Germany, organometallic chemistry, 2003), Jean-Claude Bünzli (2006, coordination & supramolecular chemistry), Claude Piguet (2009 Supramolecular chemistry and thermodynamics), David Parker (2012, bio-applications of lanthanides).

We are now seeking proposals for nominees who correspond to the following description:

“The award is bestowed for an outstanding and long-lasting contribution to the science and/or technology of the f-elements. Major contributions to other areas of science or technology SHOULD NOT be part of the decision. On the other hand, other factors may be considered in the evaluation of the candidates, such as contributions to (i) teaching or graduate training in f-elements, (ii) professional societies, (iii) publications related to f-elements (editorships, etc.)” [regulations of the award].

The proposal should contain:

- (i) a nominating letter from an individual or group of individuals highlighting the achievements of the candidate and the reasons of the nomination
- (ii) supporting letters
- (iii) a curriculum vitae with a short description of the research performed (**1-2 pages**)
- (iv) a list of publications and/or of any relevant items.

<http://ereswww.epfl.ch/>

Nominations are now sought and should be sent to Prof. J.-C. Bünzli, **exclusively by e-mail** to jean-claude.bunzli@epfl.ch, under the form of **A SINGLE .pdf file**.

Deadline for the reception of the applications is **February 28, 2015**.

With best regards

ERES executive committee
