Spedding awards presented at Rare Earth Research Conferences (14th-27th)

This prestigious award is given in recognition of excellence and achievement in research centered on the science and technology of rare earths. The awardee is selected by a committee from submitted nominations. The award consists of a medal mounted on a plaque and a monetary sum of \$1,000. The Spedding Award winner is asked to present a plenary lecture on the highlights of his or her work at the RERC meeting.
